Create Dashboard

Customer Names and Customer Names - Numbers fields will display all the customers where the partial name you entered appears. Selecting "All" from both fields will select all the customers in the database not just the customers displayed here. You can choose multiple selections from each of the following fields by holding Ctrl key and selecting the choices.

Dashboard Title:

Customer Name:

302

304

310

314

Customer Name - Number:

Region Name - Number:

District Name - Number:

All	All	All	All
